# Before You Choose a Plan

---

To choose the best plan for your needs, you should:

## New for 2023—Virtual Connect Silver Plan

Our new BlueChoice HMO Value Silver \$3,000 VisionPlus Virtual Connect plan includes unlimited PCP and mental health video visits through CloseKnit at \$0. See page 13 for more information on CloseKnit.

## Understand metal levels

Under the Affordable Care Act (ACA) there are four categories of health coverage—Bronze, Silver, Gold and Platinum—called metal levels. All health plans fall into a metal level depending on the share of healthcare expenses they cover. For example, bronze plans have higher deductibles than other metal level plans.

In Maryland, CareFirst offers plans in the following metal levels:

- Bronze
- Silver
- Gold

CareFirst also offers a Catastrophic plan (BlueChoice Young Adult) for individuals under age 30 or individuals with a hardship exemption.

## Consider a Health Savings Account

A Health Savings Account (HSA) is a tax-exempt medical savings account that can be used to pay for your own—and your dependents'—eligible expenses. HSAs enable you to pay for eligible health expenses and save for future health expenses on a tax-free basis. We offer two health insurance plans that coordinate with an HSA. Look for HSA in the plan name.

## Look into financial assistance

There are two types of financial assistance (also called subsidies) available:

### A tax credit to help pay your monthly premium—

This subsidy helps reduce your monthly premium. Once you qualify, your tax credit will be sent to CareFirst and applied to your bill, reducing your premium. If you qualify for this type of assistance, you can use it toward the purchase of any plan—Bronze, Silver or Gold (excludes the BlueChoice Young Adult plan).

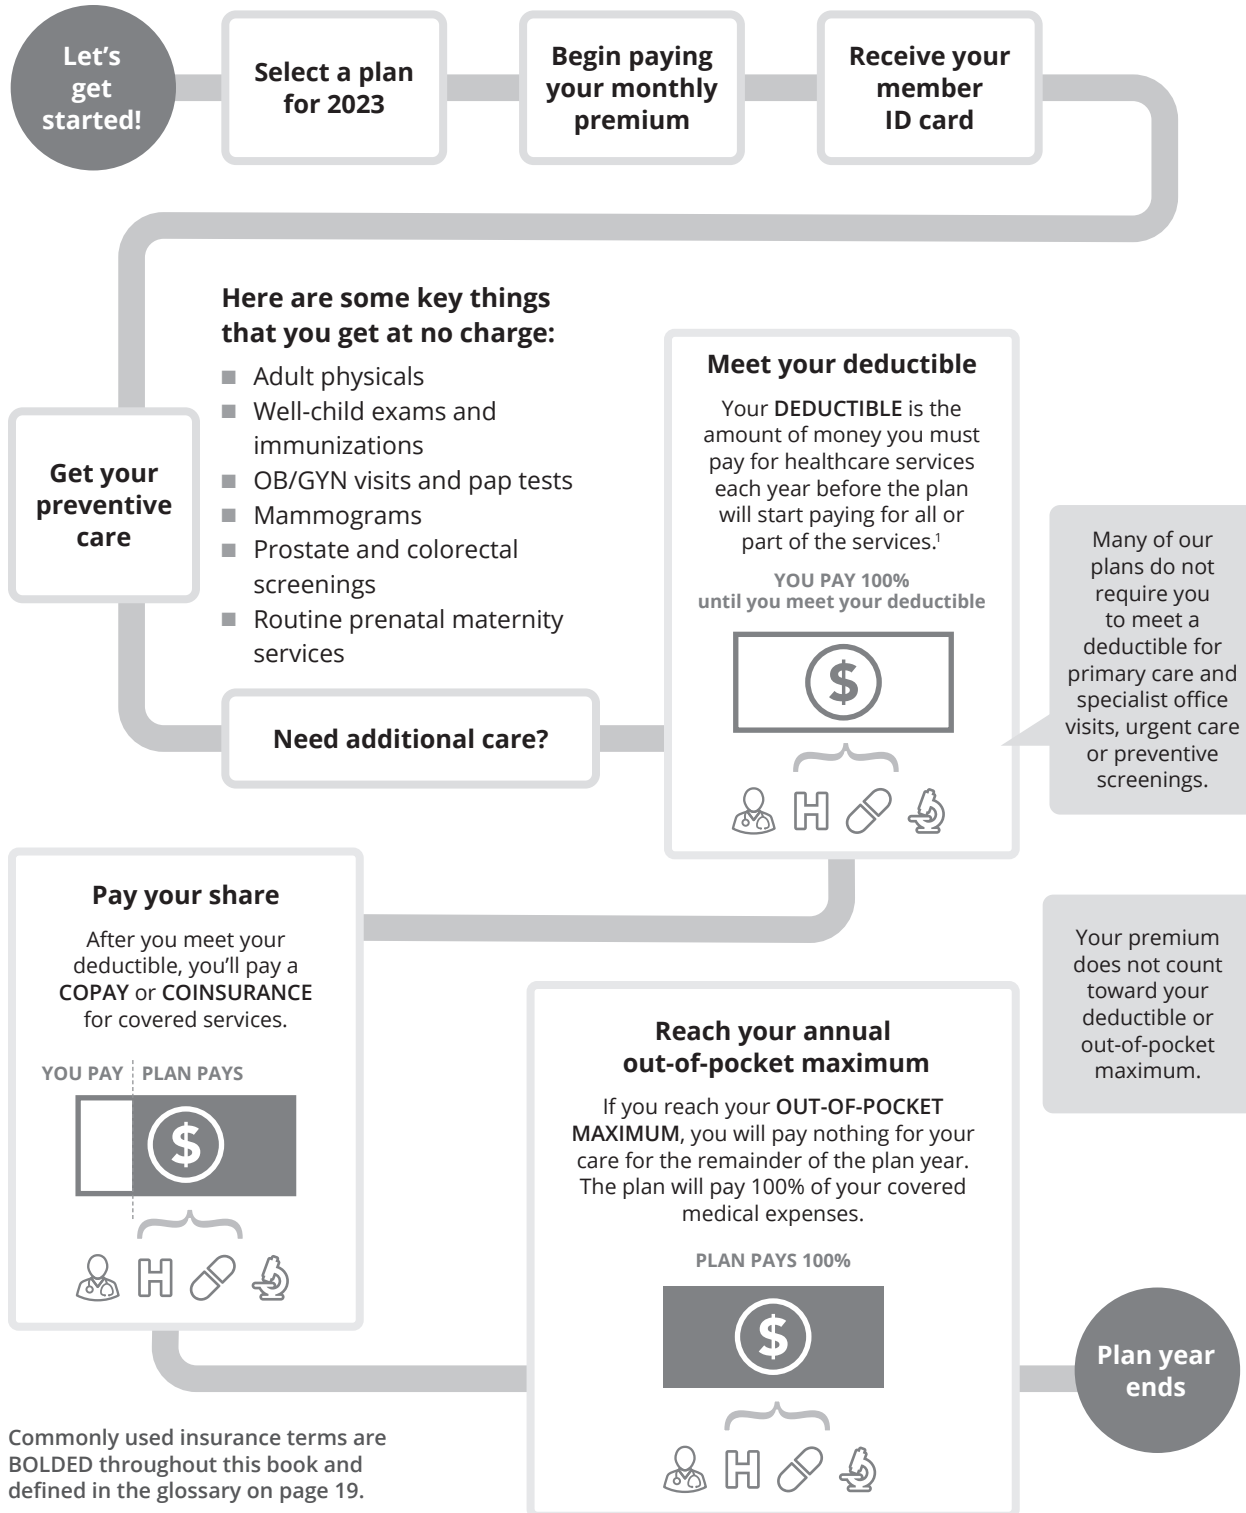

### A subsidy to lower your out-of-pocket

**expenses—**This subsidy helps limit how much you spend on out-of-pocket expenses like copays, coinsurance and deductibles. By lowering these out-of-pocket costs, your health plan begins paying 100% of your costs sooner than it would have without the subsidy. If you qualify and want to take advantage of this type of financial assistance, you must purchase a Silver plan through the Maryland Health Connection at [marylandhealthconnection.gov](http://marylandhealthconnection.gov).

*Note: If you are an existing member and you qualified for financial assistance in 2022 and did not elect automatic reassessment, you need to contact the Maryland Health Connection. You will be re-evaluated for financial assistance for 2023 during Open Enrollment from November 1, 2022–January 15, 2023.*

# How Health Insurance Works

To help you understand your health plan options, it's important to understand a bit about health insurance. The graphic below explains how health insurance works and defines some key terms.

Commonly used insurance terms are **BOLDED** throughout this book and defined in the glossary on page 19.

<sup>1</sup> Certain charges, such as charges in excess of the allowed benefit, may not be used to satisfy the deductible. Please see your contract for more information.

# Included With Every CareFirst Plan

CareFirst health plans are designed with your health in mind. All individual and family plans include:

- Prescription drug coverage
- Vision examination for members over age 19
- Dental and vision coverage for members under age 19
- Enhanced diabetes benefit

## Enhanced diabetes benefit

CareFirst has proactively taken steps to remove financial barriers to diabetes medications and supplies.

- **Insulin**—CareFirst covers Preferred Brand Insulin at \$0 with no deductible requirement for all plans, including Health Savings Accounts (HSAs). In addition, we're covering Non-Preferred Insulin, capped at \$30 for a 30-day supply and \$60 for a 90-day supply.
- **Diabetic supplies**—for members in HSA plans, you'll no longer have to meet your deductible first to get these supplies at no cost. Diabetic supplies will continue to be no charge for all plans.†

## Prescription drug coverage

As a CareFirst member, your prescription coverage includes:

- A nationwide network of more than 66,000 participating pharmacies.
- Access to thousands of covered prescription drugs on our formulary (drug list), divided into tiers. The price you pay for a drug is determined by the tier it falls into.
  - **Generic Drugs (Tier 1)**—Generic drugs are equally safe and effective as brand-name drugs, but generics cost up to 85% less.\* Ask your doctor if your prescription medication can be filled with a generic alternative.
  - **Preferred Brand-Name Drugs (Tier 2)**—Brand-name drugs that may not yet be available in generic form, but have been reviewed for quality, effectiveness, safety and cost by an independent national committee of healthcare professionals.
  - **Non-Preferred Brand-Name Drugs (Tier 3)**—These drugs often have a generic or preferred brand drug option where your cost-share will be lower. You will pay more for drugs in this tier. If you choose a non-preferred drug when a generic is available, you will pay the non-preferred copay along with the difference in price between the generic and non-preferred drug.
  - **Preferred Specialty Drugs (Tier 4)\*\***—Consist of drugs used to treat chronic, complex and/or rare health conditions. These drugs may have a lower cost-share than non-preferred specialty drugs.
  - **Non-Preferred Specialty Drugs (Tier 5)\*\***—These drugs often have a specialty drug option where your cost-share will be lower.

\*\* Specialty drugs must be obtained through mail order at CVS Specialty Pharmacy.

† Diabetic equipment (such as glucometers and insulin pumps) will follow the normal cost share of each plan.

- Mail Service Pharmacy, our convenient and fast mail order drug program.
  - Save money on maintenance medications—those drugs taken daily to treat a chronic condition like high cholesterol—by having them delivered right to your home. You can get up to a 90-day supply of your maintenance medications for the cost of two copays.
- Coordinated medical and pharmacy programs to help improve your overall health and reduce costs.
- Personalized care management notices detailing cost savings opportunities, safety alerts and important drug information.

We've included more information on prescription benefits by health plan in the fold-out chart included with this book. Our drug list formulary can be found at [carefirst.com/rx](https://carefirst.com/rx).

# Know Before You Go

---

Knowing where to go when you need medical care is key to getting treatment with the lowest out-of-pocket costs.

## **Primary care provider (PCP)**

Establishing a relationship with a primary care provider is the best way to receive consistent, quality care. Except for emergencies, your PCP should be your first call when you require medical attention. Your PCP may be able to provide advice over the phone or fit you in for a visit right away.

## **CloseKnit (virtual-first primary care practice)**

Receive the care you need, 24/7/365, without leaving home with our virtual practice. Same scheduled appointments are available for preventive, urgent behavioral/mental health services, chronic condition prevention, medication management and more. Visit [closeknithealth.com](https://closeknithealth.com).

## **24-Hour Nurse Advice Line**

With our free nurse advice line, members can call anytime to speak with a registered nurse. Nurses will discuss your symptoms with you and recommend the most appropriate care.

## **CareFirst Video Visit**

See a doctor 24/7/365 without an appointment! You can consult with a board-certified doctor on your smartphone, tablet or computer. Doctors can treat a number of common health issues, such as flu and pink eye. Visit [carefirstvideovisit.com](https://carefirstvideovisit.com) for more information.

## **Convenience care centers (retail health clinics)**

These are typically located inside a pharmacy or retail store and offer accessible care with extended hours. Visit a convenience care center for help with minor concerns like cold symptoms and ear infections.

## **Urgent care centers**

Urgent care centers have a doctor on staff and are another option when you need care on weekends or after hours.

## **Emergency room (ER)**

An emergency room provides treatment for acute illnesses and trauma. You should call 911 or go straight to the ER if you have a life-threatening injury, illness or emergency. Prior authorization is not needed for ER services.

When your PCP isn't available, being familiar with your options will help you locate the most appropriate and cost-effective medical care. This chart shows how costs\* vary for a sample health plan depending on where you choose to get care. Visit [carefirst.com/needcare](https://carefirst.com/needcare) for more information.

# Choosing Your Plan

---

See accompanying plan comparison chart to help you select the coverage option that best fits your needs.

## Calculating your total monthly premium

Before you decide on the plan that best fits your needs, you'll likely want to take a look at the cost.

### Buying an individual plan

Using the chart, find the plan(s) you are considering and circle the dollar amount that corresponds with how old you will be when your coverage begins (i.e., your age on January 1, 2023). That's your rate.

### Buying a family plan

If you are interested in a family plan, each family member is rated individually and your rates are combined to calculate your family premium. To calculate your family premium:

- Circle the rate for you.
- Circle the rate for your spouse (if applicable).
- Circle the rates for your oldest three children under age 21.

If you have more than three children under age 21, all will be covered on your plan but only the three oldest count toward your overall premium.

- Circle the rate for each child age 21-25.  
Note: Children over age 25 must purchase their own health insurance.
- Add all individual rates together to determine your family premium.

# Four Ways to Enroll

---

Once you decide on the CareFirst plan that works best for your needs, all that's left to do is enroll. We offer five different ways to enroll in one of our health plans below:

1

Enroll online at [carefirst.com/individual](https://carefirst.com/individual) and get instant confirmation.

2

If you think you qualify for financial assistance, you must purchase a plan through [marylandhealthconnection.com](https://marylandhealthconnection.com). See page 3 for more information on financial assistance.

3

Fill out and mail the enclosed paper application using the pre-paid envelope. We'll mail you a confirmation and a bill.

4

Enroll through your broker, if you have one. A broker is an independent agent who represents you (the buyer) and works to find you the best health insurance policy for your needs.

## When your coverage will start

When you enroll through CareFirst, your effective date is the date your coverage begins. If you purchase a new plan for 2023 during the open enrollment period, your coverage will start on January 1, 2023.

If you are enrolling through the Maryland Health Connection, please be sure to contact them to confirm your effective date.

## Paying for your plan

If you buy CareFirst coverage directly from us online, you can make an immediate payment using your checking account or credit/debit card.

If you buy CareFirst coverage through the Maryland Health Connection, or if you apply with the paper application included in this book, you will be mailed a bill after enrollment. Please wait for your bill before making a payment.

Learn more about payment options by visiting [carefirst.com/paymentoptions](https://carefirst.com/paymentoptions).

## Convenient e-billing

If you set up automated monthly premium payments, your first payment and each remaining payment—will be withdrawn from your bank account and sent to CareFirst automatically. As a member, you can set up recurring payments—using a smartphone, tablet or desktop computer—at [carefirst.com/myaccount](https://carefirst.com/myaccount) or with the CareFirst mobile app.

# Glossary

---

Here's a quick reference guide to many of the terms used in this book. For more glossary terms, visit our YouTube channel videos at [youtube.com/carefirst](https://youtube.com/carefirst).

**Allowed benefit**—the maximum dollar amount an insurer will pay for a covered health service, regardless of the provider's actual charge. A provider who participates in the CareFirst BlueCross BlueShield or BlueChoice network cannot charge members more than the allowed benefit amount for any covered service.

**Coinsurance**—the percentage you pay after you've met your deductible. For example, if your healthcare plan has a 30% coinsurance and the allowed benefit is \$100 (the amount a provider can charge a CareFirst member for that service), then your cost would be \$30. CareFirst would pay the remaining \$70.

**Convenience care centers/retail health clinics**—tend to be located inside a pharmacy or retail store and offer fast access to treatment for non-emergency care. These centers/clinics offer extended weekend hours and can often see you quickly.

**Copay**—a fixed dollar amount you pay when you visit a doctor or other provider. For example, you might pay \$40 each time you visit a specialist or \$300 when you visit the emergency room.

**Deductible**—the amount of money you must pay each year before CareFirst begins to pay its portion of your claims. For example, if your deductible is \$1,000, you'll pay the first \$1,000 for healthcare services covered by your plan and subject to the deductible. CareFirst will start paying for part or all of the services after that. Your deductible will start over each year on January 1. Please note—many of our plans include a variety of services that do not require you to meet the deductible before CareFirst begins paying.

**Effective date**—the date your coverage begins. If you purchase a plan during the annual open enrollment period, your new plan starts on January 1.

**Generic drugs**—prescription drugs that work the same as brand-name drugs but cost much less. To learn more about generics and how you can save money, visit [carefirst.com/acarx](https://carefirst.com/acarx).

**Health Maintenance Organization (HMO)**—BlueChoice HMO plans offer the flexibility to see any of the nearly 44,000 participating providers in the BlueChoice network. Outside of our network, only emergency medical services are covered.

**Health Savings Account (HSA)**—a special, tax-advantaged account that you set up to save money for current and future healthcare expenses. The deposits you make in your HSA reduce your taxable income, helping you keep more of your hard-earned money. You can use the money you deposit into your HSA to pay the deductible and other out-of-pocket expenses for you, your spouse and your dependents (even if they're not enrolled in your healthcare plan) or you can save it for future healthcare expenses. If you have coverage for your spouse or family, the maximum amount that you can contribute to your HSA is even higher and can reduce your taxable income by whatever amount you contribute.

**Non-preferred brand drugs**—drugs that are often available in less expensive forms, either as generic or preferred brand drugs. You will pay more for this category of drugs.

**Non-preferred specialty drugs**—specialty drugs that are likely to have a more cost-effective alternative available. This tier has the highest copay for specialty drugs.

**Out-of-pocket maximum**—the most you will have to pay for medical expenses and prescriptions in a calendar year. Your out-of-pocket maximum will start over every January 1. Please note: Your monthly premium payments do not count toward your out-of-pocket maximum.

**Preferred brand drugs**—drugs that may not yet be available in generic form, chosen for their effectiveness and affordability compared to alternatives. They cost more than generics but less than non-preferred brand drugs.

**Preferred specialty drugs**—consists of specialty drugs used to treat chronic, complex and/or rare health conditions. These drugs are generally more cost-effective than other specialty drugs.

**Preferred Provider Organization (PPO)**—BluePreferred PPO plans offer the most flexibility. Care can be accessed from the PPO network of approximately 47,000 providers locally and hundreds of thousands nationally. Costs will be higher if you see a doctor who does not participate with a Blue Cross Blue Shield plan.

**Premium**—the amount you pay each month for your plan, based on the number and ages of covered family members and the plan you choose.

**Primary care provider (PCP)**—the doctor you select as your healthcare partner. They know and understand you and your healthcare needs.

**Specialty drugs**—the highest priced drugs that may require special handling, administration or monitoring. These drugs may be oral or injectable and are used to treat serious or chronic conditions. Specialty drugs must be obtained through mail order at CVS Specialty Pharmacy.

**Value plan**—Value plans are plan designs that have lower cost-sharing (i.e., deductible, out-of-pocket maximum, copays and coinsurance) for some covered health services. All insurance carriers are required to sell value plans on the Maryland Exchange. With value plans, cost share and provider network offered by each insurer will differ.

## A. Methods of paying physicians

The following definitions explain how insurance carriers may pay physicians (or other providers) for your healthcare services.

The examples show how Dr. Jones, an obstetrician/gynecologist, would be compensated under each method of payment.

**Salary:** A physician (or other provider) is an employee of the HMO and is paid compensation (monetary wages) for providing specific healthcare services.

*Since Dr. Jones is an employee of an HMO, she receives her usual bi-weekly salary regardless of how many patients she sees or the number of services she provides. During the months of providing prenatal care to Mrs. Smith, who is a member of the HMO, Dr. Jones' salary is unchanged. Although Mrs. Smith's baby is delivered by Cesarean section, a more complicated procedure than a vaginal delivery, the method of delivery will not have an effect upon Dr. Jones' salary.*

**Capitation:** A physician (or group of physicians) is paid a fixed amount of money per month by an HMO for each patient who chooses the physician(s) to be his or her doctor. Payment is fixed without regard to the volume of services that an individual patient requires.

*Under this type of contractual arrangement, Dr. Jones participates in an HMO network. She is not employed by the HMO. Her contract with the HMO stipulates that she is paid a certain amount each month for patients who select her as their doctor. Since Mrs. Smith is a member of the HMO, Dr. Jones monthly payment does not change as a result of her providing ongoing care to Mrs. Smith. The capitation amount paid to Dr. Jones is the same whether or not Mrs. Smith requires obstetric services.*

**Fee-for-service:** A physician (or other provider) charges a fee for each patient visit, medical procedure, or medical service provided. An HMO pays the entire fee for physicians it has under contract and an insurer pays all or part of that fee, depending on the type of coverage. The patient is expected to pay the remainder.

*Dr. Jones' contract with the insurer or HMO states that Dr. Jones will be paid a fee for each patient visit and each service she provides. The amount of payment*

*Dr. Jones receives will depend upon the number, types, and complexity of services, and the time she spends providing services to Mrs. Smith. Because Cesarean deliveries are more complicated than vaginal deliveries, Dr. Jones is paid more to deliver Mrs. Smith's baby than she would be paid for a vaginal delivery. Mrs. Smith may be responsible for paying some portion of Dr. Jones' bill.*

**Discounted fee-for-service:** Payment is less than the rate usually received by the physician (or other provider) for each patient visit, medical procedure, or service. This arrangement is the result of an agreement between the payer, who gets lower costs and the physician (or other provider), who usually gets an increased volume of patients.

*Like fee-for-service, this type of contractual arrangement involves the insurer or HMO paying Dr. Jones for each patient visit and each delivery; but under this arrangement, the rate, agreed upon in advance, is less than Dr. Jones' usual fee. Dr. Jones expects that in exchange for agreeing to accept a reduced rate, she will serve a certain number of patients. For each procedure that she performs, Dr. Jones will be paid a discounted rate by the insurer or HMO.*

**Bonus:** A physician (or other provider) is paid an additional amount over what he or she is paid under salary, capitation, fee-for-service, or other type of payment arrangement. Bonuses may be based on many factors, including member satisfaction, quality of care, control of costs and use of services.

*An HMO rewards its physician staff or contracted physicians who have demonstrated higher than average quality and productivity. Because Dr. Jones has delivered so many babies and she has been rated highly by her patients and fellow physicians, Dr. Jones will receive a monetary award in addition to her usual payment.*

**Case rate:** The HMO or insurer and the physician (or other provider) agree in advance that payment will cover a combination of services provided by both the physician (or other provider) and the hospital for an episode of care.

*This type of arrangement stipulates how much an insurer or HMO will pay for a patient's obstetric services. All office visits for prenatal and postnatal care, as well as the delivery, and hospital-related*

charges are covered by one fee. Dr. Jones, the hospital, and other providers (such as an anesthesiologist) will divide payment from the insurer or HMO for the care provided to Mrs. Smith.

### B. Percentage of provider payment methods

CareFirst BlueChoice, Inc. is a network model HMO and contracts directly with the primary care and specialty care providers. According to this type of arrangement, CareFirst BlueChoice, Inc. reimburses providers primarily on a discounted fee-for-service payment method.
